AUTHOR INDEX

Ai, M.
Effects of preparation variables on the properties of V_2O_5-P_2O_5-ZrO_2 catalysts used for the oxidation of n-butane 223

Aika, K.
--, Kumasaka, M., Oma, T., Kato, O., Matsuda, H., Watanabe, N., Yamazaki, K., Ozaki, A. and Onishi, T.
Support and promoter effect of ruthenium catalyst. III. Kinetics of ammonia synthesis over various Ru catalysts 57

Anderson, J.B.F.
--, Burch, R. and Cairns, J.A.
The influence of metal-support interactions on the reaction of n-hexane over supported Rh catalysts 255

Baerns, M., see Bytyn, W. 199

Baiker, A., see Baris, H. 295

Baltanas, M.A.
--, Stiles, A.B. and Katzer, J.R.
Development of supported manganese oxides catalysts for partial oxidation: preparation and hydrogenation properties 13

Baris, H.
--, Glinski, M., Kijenski, J., Wokaun, A. and Baiker, A.
Ammonia synthesis over alumina and magnesia supported ruthenium: comparative kinetic study of the promotive action of metallic and ionic potasssium 295

Bartley, G.J.J.
-- and Burch, R.
Zr-containing pillared interlayer clays. Part IV. Copper containing catalysts for the synthesis gas reaction 209

Benecke, J.I., see Xu, X. 271

Boelhouwer, C., see Xu, X. 271

Bond, G.C.
-- and Richards, D.G.
Lanthanum oxide promoted rhodium/titania and rhodium-platinum/titania catalysts for alcohol formation from synthesis gas 303

Bridgewater, A.J.
--, Wainwright, M.S. and Young, D.J.
A comparison of Raney copper-zinc and coprecipitated copper-zinc-aluminium oxide methanol syntheses catalysts 241

Burch, R., see Anderson, J.B.F. 255

Burch, R., see Bartley, G.J.J. 209

Bytyn, W.
-- and Baerns, M.
Supported PbO catalysts for the oxidative coupling of methane - the effect of surface acidity of the support on C_{2+} selectivity 199

Cairns, J.A., see Anderson, J.B.F. 255

Chakrabarty, D.K.
--, Rao, M.K., Sundararaman, N. and Chandavar, K.
Ruthenium-platinum bimetallic catalysts supported on silica: characterization and study of benzene hydrogenation and CO methanation 69

Chandavar, K., see Chakrabarty, D.K. 69

Chen, Z.-H., see Iizuka, T. 1

Collins, D.J.
--, Quirey, C.B., Fertig, J.E. and Davis, B.H.
Isomerization and disproportionation of trimethylbenzenes with LaY zeolite catalyst 35

Davis, B.H., see Collins, D.J. 35

Denise, B.
-- and Sneeden, P.A.
Oxide-supported catalysts prepared from copper formate: differences in behaviour in methanol synthesis from CO/H_2 and CO_2/H_2 mixtures 235

Derouane, E.G.
--, Dewaele, N., Gabelica, Z. and Nagy, J.B.
Physicochemical characterization of zeolite ZSM-20 285

Dewaele, N., see Derouane, E.G. 285

Fertig, J.E., see Collins, D.J. 35

Fletcher, J.C.Q.
--, Kojima, M. and O'Connor, C.T.
Acidity and catalytic activity of synthetic mica-montmorillonite. Part II: Propene oligomerization 181

Fletcher, J.C.Q., see Kojima, M. 169

Fujie, S., see Iizuka, T. 1

Gabelica, Z., see Derouane, E.G. 285

SUBJECT INDEX

Acryclic acid esterifaction
Esterification of acrylic acid with methanol over niobic acid catalyst 1
Adsorption
Ruthenium-platinum bimetallic catalysts supported on silica: characterization and study of benzene hydrogenation and CO methanation 69
Adsorption
2-Methylbutanal as a probe molecule and the production of isoprene on stoichiometric and nonstoichiometric B-P-O catalysts 161
Adsorption
Acidity and catalytic activity of synthetic mica-montmorillonite. Part I: an infrared and temperature programmed desorption study 169
Adsorption
Physicochemical characterization of zeolite ZSM-20 285
Ageing
Acidity and catalytic activity of synthetic mica-montmorillonite. Part II: propene oligomerization 181
Alcohol formation
Lanthanum oxide promoted rhodium/titania and rhodium-platinum/titania catalysts for alcohol formation from synthesis gas 303
Alkene metathesis
$Re_2O_7/SiO_2.Al_2O_3$ catalysts for the metathesis of functionalized alkenes 271
Ammonia synthesis
Support and promoter effect of ruthenium catalyst. III. Kinetics of ammonia synthesis over various Ru catalysts 57
Ammonia synthesis
Ammonia synthesis over alumina and magnesia supported ruthenium: comparative kinetic study of the promotive action of metallic and ionic potassium 295
Ammoxidation
A study of supported platinum catalysts for the production of hydrogen cyanide by the ammoxidation of methane 7
Benzene hydrogenation
Ruthenium-platinum bimetallic catalysts supported on silica: characterization and study of benzene hydrogenation and CO methanation 69
Boron-phosphorus oxides
2-Methylbutanal as a probe molecule and the production of isoprene on stoichiometric and nonstoichiometric B-P-O catalysts 161
Butane oxidation
Effects of preparation variables on the properties of $V_2O_5-P_2O_5-ZrO_2$ catalysts used for the oxidation of n-butane 223
Carbon dioxide hydrogenation
Oxide-supported copper catalysts prepared from copper formate: differences in behaviour in methanol synthesis from CO/H_2 and CO_2/H_2 mixtures 235
Carbon dioxide hydrogenation
A comparison of Raney copper-zinc and coprecipitated copper-zinc-aluminium oxide methanol syntheses catalysts 241
Carbon monoxide hydrogenation
Ruthenium-platinum bimetallic catalysts supported on silica: characterization and study of benzene hydrogenation and CO methanation 69
Carbon monoxide hydrogenation
Zr-containing pillared interlayer clays. Part IV. Copper containing catalysts for the synthesis gas reaction 209
Carbon monoxide hydrogenation
Oxide-supported copper catalysts prepared from copper formate: differences in behaviour in methanol synthesis from CO/H_2 and CO_2/H_2 mixtures 235
Carbon monoxide hydrogenation
A comparison of Raney copper-zinc and coprecipitated copper-zinc-aluminium oxide methanol syntheses catalysts 241
Carbon monoxide hydrogenation
Lanthanum oxide promoted rhodium/titania and rhodium-platinum/titania catalysts for alcohol formation from synthesis gas 303
Catalyst characterization
Development of supported manganese oxides catalysts for partial oxidation: preparation and hydrogenation properties 13
Catalyst characterization
Ruthenium-platinum bimetallic catalysts supported on silica:

characterization and study of benzene hydrogenation and CO methanation 69
Catalyst characterization
Metal contaminant effects on the properties of a silica-rich fluid cracking catalyst 143
Catalyst characterization
Acidity and catalytic activity of synthetic mica-montmorillonite. Part I: an infrared and temperature programmed desorption study 169
Catalyst characterization
A comparison of Raney copper-zinc and coprecipitated copper-zinc-aluminium oxide methanol syntheses catalysts 241
Catalyst characterization
$Re_2O_7/SiO_2.Al_2O_3$ catalysts for the metathesis of functionalized alkenes 271
Catalyst characterization
Physicochemical characterization of zeolite ZSM-20 285
Catalyst characterization
Lanthanum oxide promoted rhodium/titania and rhodium-platinum/titania catalysts for alcohol formation from synthesis gas 303
Catalyst preparation
A study of supported platinum catalysts for the production of hydrogen cyanide by the ammoxidation of methane 7
Catalyst preparation
Development of supported manganese oxides catalysts for partial oxidation: preparation and hydrogenation properties 13
Catalyst preparation
Ruthenium-platinum bimetallic catalysts supported on silica: characterization and study of benzene hydrogenation and CO methanation 69
Catalyst preparation
Vanadosilicate catalysts prepared from different vanadium sources and their characteristics in methanol to hydrocarbon conversion 89
Catalyst preparation
Influence of pelleting conditions on catalyst pore structure and effectiveness 133
Catalyst preparation
Metal contaminant effects on the properties of a silica-rich fluid cracking catalyst 143
Catalyst preparation
2-Methylbutanal as a probe molecule and the production of isoprene on stoichiometric and nonstoichiometric B-P-O catalysts 161
Catalyst preparation
Zr-containing pillared interlayer clays. Part IV. Copper containing catalysts for the synthesis gas reaction 209
Catalyst preparation
Effects of preparation variables on the properties of $V_2O_5-P_2O_5-ZrO_2$ catalysts used for the oxidation of n-butane 223
Catalyst preparation
Oxide-supported copper catalysts prepared from copper formate: differences in behaviour in methanol synthesis from CO/H_2 and CO_2/H_2 mixtures 235
Catalyst preparation
A comparison of Raney copper-zinc and coprecipitated copper-zinc-aluminium oxide methanol syntheses catalysts 241
Catalyst preparation
$Re_2O_7/SiO_2.Al_2O_3$ catalysts for the metathesis of functionalized alkenes 271
Catalyst preparation
Physicochemical characterization of zeolite ZSM-20 285
Coal gasification
Catalysis of nickel in low temperature gasification of brown coal 105
Coke formation
Vanadosilicate catalysts prepared from different vanadium sources and their characteristics in methanol to hydrocarbon conversion 89
Coke formation
2-Methylbutanal as a probe molecule and the production of isoprene on stoichiometric and nonstoichiometric B-P-O catalysts 161
Coke formation
Acidity and catalytic activity of synthetic mica-montmorillonite. Part II: propene oligomerization 181
Copper
Oxide-supported copper catalysts prepared from copper formate: differences in behaviour in methanol synthesis from CO/H_2 and CO_2/H_2 mixtures 235
Copper-zinc/alumina
A comparison of Raney copper-zinc and coprecipitated copper-zinc-aluminium oxide methanol syntheses catalysts 241
Cyclohexanol dehydration
Influence of pelleting conditions on

catalyst pore structure and effectiveness 133
Dehydration
Influence of pelleting conditions on catalyst pore structure and effectiveness 133
Dehydration
2-Methylbutanal as a probe molecule and the production of isoprene on stoichiometric and nonstoichiometric B-P-O catalysts 161
Dehydrogenation
Dehydrogenation of ethylbenzene over potassium-promoted iron oxide containing cerium and molybdenum oxides 119
Diffusion
Influence of pelleting conditions on catalyst pore structure and effectiveness 133
Disproportionation
Isomerization and disproportionation of trimethylbenzenes with LaY zeolite catalyst 35
Effectiveness
Influence of pelleting conditions on catalyst pore structure and effectiveness 133
Esterification
Esterification of acrylic acid with methanol over niobic acid catalyst 1
Ethanol oxidation
Activity of ethanol oxidation to acetaldehyde over $La_{1-x}Sr_xFeO_3$ and $LaMeO_3$(Me=Co, Mn, Ni, Fe) 81
Ethylbenzene dehydrogenation
Dehydrogenation of ethylbenzene over potassium-promoted iron oxide containing cerium and molybdenum oxides 119
Ethylene hydrogenation
Development of supported manganese oxides catalysts for partial oxidation: preparation and hydrogenation properties 13
Fluid cracking catalyst
Metal contaminant effects on the properties of a silica-rich fluid cracking catalyst 143
Gas oil cracking
Metal contaminant effects on the properties of a silica-rich fluid cracking catalyst 143
Gasification
Catalysis of nickel in low temperature gasification of brown coal 105
Hexane isomerization
The influence of metal-support interactions on the reaction of n-hexane over supported Rh catalysts 255
Hydrogen adsorption
Ruthenium-platinum bimetallic catalysts supported on silica: characterization and study of benzene hydrogenation and CO methanation 69
Hydrogen cyanide
A study of supported platinum catalysts for the production of hydrogen cyanide by the ammoxidation of methane 7
Hydrogen spillover
Re influence on hydrogen spillover on $Pt-Re/Al_2O_3$ 193
Hydrogenation
Development of supported manganese oxides catalysts for partial oxidation: preparation and hydrogenation properties 13
Hydrogenation
Ruthenium-platinum bimetallic catalysts supported on silica: characterization and study of benzene hydrogenation and CO methanation 69
Hydrogenation
Zr-containing pillared interlayer clays. Part IV. Copper containing catalysts for the synthesis gas reaction 209
Hydrogenation
Oxide-supported copper catalysts prepared from copper formate: differences in behaviour in methanol synthesis from CO/H_2 and CO_2/H_2 mixtures 235
Hydrogenation
A comparison of Raney copper-zinc and coprecipitated copper-zinc-aluminium oxide methanol syntheses catalysts 241
Hydrogenation
Lanthanum oxide promoted rhodium/titania and rhodium-platinum/titania catalysts for alcohol formation from synthesis gas 303
Infrared spectroscopy
Acidity and catalytic activity of synthetic mica-montmorillonite. Part I: an infrared and temperature programmed desorption study 169
Ion scattering spectroscopy
Development of supported manganese oxides catalysts for partial oxidation: preparation and hydrogenation properties 13
Iron oxide
Dehydrogenation of ethylbenzene over potassium-promoted iron oxide containing cerium and molybdenum oxides 119

Isomerization
Isomerization and disproportionation of trimethylbenzenes with LaY zeolite catalyst 35
Isomerization
The influence of metal-support interactions on the reaction of n-hexane over supported Rh catalysts 255
Kinetics
Isomerization and disproportionation of trimethylbenzenes with LaY zeolite catalyst 35
Kinetics
Support and promoter effect of ruthenium catalyst. III. Kinetics of ammonia synthesis over various Ru catalysts 57
Kinetics
Ruthenium-platinum bimetallic catalysts supported on silica: characterization and study of benzene hydrogenation and CO methanation 69
Kinetics
Activity of ethanol oxidation to acetaldehyde over $La_{1-x}Sr_xFeO_3$ and $LaMeO_3$(Me=Co, Mn, Ni, Fe) 81
Kinetics
Ammonia synthesis over alumina and magnesia supported ruthenium: comparative kinetic study of the promotive action of metallic and ionic potassium 295
Lead oxide
Supported PbO catalysts for the oxidative coupling of methane - the effect of surface acidity of the support on C_{2+} selectivity 199
Maleic anhydride
Effects of preparation variables on the properties of V_2O_5-P_2O_5-ZrO_2 catalysts used for the oxidation of n-butane 223
Manganese oxides
Development of supported manganese oxides catalysts for partial oxidation: preparation and hydrogenation properties 13
Metal contaminant effects
Metal contaminant effects on the properties of a silica-rich fluid cracking catalyst 143
Metal-support interactions
The influence of metal-support interactions on the reaction of n-hexane over supported Rh catalysts 255
Metathesis
$Re_2O_7/SiO_2.Al_2O_3$ catalysts for the metathesis of functionalized alkenes 271
Methanation
Ruthenium-platinum bimetallic catalysts supported on silica: characterization and study of benzene hydrogenation and CO methanation 69
Methane ammoxidation
A study of supported platinum catalysts for the production of hydrogen cyanide by the ammoxidation of methane 7
Methane oxidative coupling
Supported PbO catalysts for the oxidative coupling of methane - the effect of surface acidity of the support on C_{2+} selectivity 199
Methanol conversion
Vanadosilicate catalysts prepared from different vanadium sources and their characteristics in methanol to hydrocarbon conversion 89
Methanol synthesis
Oxide-supported copper catalysts prepared from copper formate: differences in behaviour in methanol synthesis from CO/H_2 and CO_2/H_2 mixtures 235
Methanol synthesis
A comparison of Raney copper-zinc and coprecipitated copper-zinc-aluminium oxide methanol syntheses catalysts 241
Methylbutanal dehydration
2-Methylbutanal as a probe molecule and the production of isoprene on stoichiometric and nonstoichiometric B-P-O catalysts 161
Mica-montmorillonite
Acidity and catalytic activity of synthetic mica-montmorillonite. Part I: an infrared and temperature programmed desorption study 169
Mica-montmorillonite
Acidity and catalytic activity of synthetic mica-montmorillonite. Part II: propene oligomerization 181
Nickel
Catalysis of nickel in low temperature gasification of brown coal 105
Niobic acid
Esterification of acrylic acid with methanol over niobic acid catalyst 1
Oligomerization
Acidity and catalytic activity of synthetic mica-montmorillonite. Part II: propene oligomerization 181
Oxidation
Activity of ethanol oxidation to acetaldehyde over $La_{1-x}Sr_xFeO_3$ and $LaMeO_3$(Me=Co, Mn, Ni, Fe) 81

Oxidation
Effects of preparation variables on the properties of V_2O_5-P_2O_5-ZrO_2 catalysts used for the oxidation of n-butane 223
Oxidative coupling
Supported PbO catalysts for the oxidative coupling of methane - the effect of surface acidity of the support on C_{2+} selectivity 199
Perovskite oxides
Activity of ethanol oxidation to acetaldehyde over $La_{1-x}Sr_xFeO_3$ and $LaMeO_3$(Me=Co, Mn, Ni, Fe) 81
Pillared interlayer clays
Zr-containing pillared interlayer clays. Part IV. Copper containing catalysts for the synthesis gas reaction 209
Platinum
A study of supported platinum catalysts for the production of hydrogen cyanide by the ammoxidation of methane 7
Platinum-rhenium/alumina
Re influence on hydrogen spillover on Pt-Re/Al_2O_3 193
Pore structure
Influence of pelleting conditions on catalyst pore structure and effectiveness 133
Promoter effect
Support and promoter effect of ruthenium catalyst. III. Kinetics of ammonia synthesis over various Ru catalysts 57
Propene oligomerization
Acidity and catalytic activity of synthetic mica-montmorillonite. Part II: propene oligomerization 181
Pyridine
Acidity and catalytic activity of synthetic mica-montmorillonite. Part I: an infrared and temperature programmed desorption study 169
Raney copper-zinc
A comparison of Raney copper-zinc and coprecipitated copper-zinc-aluminium oxide methanol syntheses catalysts 241
Regeneration
Vanadosilicate catalysts prepared from different vanadium sources and their characteristics in methanol to hydrocarbon conversion 89
Regeneration
Physicochemical characterization of zeolite ZSM-20 285
Rhenium/silica-alumina
$Re_2O_7/SiO_2.Al_2O_3$ catalysts for the metathesis of functionalized alkenes 271
Rhodium-platinum/titania
Lanthanum oxide promoted rhodium/titania and rhodium-platinum/titania catalysts for alcohol formation from synthesis gas 303
Rhodium/titania
The influence of metal-support interactions on the reaction of n-hexane over supported Rh catalysts 255
Rhodium/titania
Lanthanum oxide promoted rhodium/titania and rhodium-platinum/titania catalysts for alcohol formation from synthesis gas 303
Ruthenium-platinum/silica
Ruthenium-platinum bimetallic catalysts supported on silica: characterization and study of benzene hydrogenation and CO methanation 69
Ruthenium/alumina
Support and promoter effect of ruthenium catalyst. III. Kinetics of ammonia synthesis over various Ru catalysts 57
Ruthenium/alumina
Ammonia synthesis over alumina and magnesia supported ruthenium: comparative kinetic study of the promotive action of metallic and ionic potassium 295
Ruthenium/magnesia
Ammonia synthesis over alumina and magnesia supported ruthenium: comparative kinetic study of the promotive action of metallic and ionic potassium 295
Ruthenium/magnesium oxide
Support and promoter effect of ruthenium catalyst. III. Kinetics of ammonia synthesis over various Ru catalysts 57
Selectivity
Esterification of acrylic acid with methanol over niobic acid catalyst 1
Selectivity
Dehydrogenation of ethylbenzene over potassium-promoted iron oxide containing cerium and molybdenum oxides 119
Selectivity
Metal contaminant effects on the properties of a silica-rich fluid cracking catalyst 143
Selectivity
2-Methylbutanal as a probe molecule and the production of isoprene on

stoichiometric and nonstoichiometric B-P-O catalysts 161
Selectivity
Acidity and catalytic activity of synthetic mica-montmorillonite. Part II: propene oligomerization 181
Selectivity
Supported PbO catalysts for the oxidative coupling of methane - the effect of surface acidity of the support on C_{2+} selectivity 199
Selectivity
Zr-containing pillared interlayer clays. Part IV. Copper containing catalysts for the synthesis gas reaction 209
Selectivity
Effects of preparation variables on the properties of V_2O_5-P_2O_5-ZrO_2 catalysts used for the oxidation of n-butane 223
Selectivity
Oxide-supported copper catalysts prepared from copper formate: differences in behaviour in methanol synthesis from CO/H_2 and CO_2/H_2 mixtures 235
Selectivity
A comparison of Raney copper-zinc and coprecipitated copper-zinc-aluminium oxide methanol syntheses catalysts 241
Selectivity
The influence of metal-support interactions on the reaction of n-hexane over supported Rh catalysts 255
Selectivity
$Re_2O_7/SiO_2.Al_2O_3$ catalysts for the metathesis of functionalized alkenes 271
Selectivity
Lanthanum oxide promoted rhodium/titania and rhodium-platinum/titania catalysts for alcohol formation from synthesis gas 303
Support effect
Support and promoter effect of ruthenium catalyst. III. Kinetics of ammonia synthesis over various Ru catalysts 57
Temperature programmed desorption
Acidity and catalytic activity of synthetic mica-montmorillonite. Part I: an infrared and temperature programmed desorption study 169
Temperature programmed oxidation
Re influence on hydrogen spillover on $Pt-Re/Al_2O_3$ 193
Trimethylbenzene disproportionation
Isomerization and disproportionation of trimethylbenzenes with LaY zeolite catalyst 35
Trimethylbenzene isomerization
Isomerization and disproportionation of trimethylbenzenes with LaY zeolite catalyst 35
Vanadium-phosphorus oxides
Effects of preparation variables on the properties of V_2O_5-P_2O_5-ZrO_2 catalysts used for the oxidation of n-butane 223
Vanadosilicates
Vanadosilicate catalysts prepared from different vanadium sources and their characteristics in methanol to hydrocarbon conversion 89
X-ray diffraction
Development of supported manganese oxides catalysts for partial oxidation: preparation and hydrogenation properties 13
X-ray diffraction
Ruthenium-platinum bimetallic catalysts supported on silica: characterization and study of benzene hydrogenation and CO methanation 69
X-ray photoelectron spectroscopy
Ruthenium-platinum bimetallic catalysts supported on silica: characterization and study of benzene hydrogenation and CO methanation 69
X-ray photoelectron spectroscopy
Metal contaminant effects on the properties of a silica-rich fluid cracking catalyst 143
Zeolites
Isomerization and disproportionation of trimethylbenzenes with LaY zeolite catalyst 35
Zeolites
Vanadosilicate catalysts prepared from different vanadium sources and their characteristics in methanol to hydrocarbon conversion 89
Zeolites
Metal contaminant effects on the properties of a silica-rich fluid cracking catalyst 143
Zeolites
Physicochemical characterization of zeolite ZSM-20 285
